EVENING

Hosted by the Maths Faculty

Ten Tors Wild Camp Training (W7-8)

As the team placed one foot in front of the other, the sun set on Friday 29th March.

Temperatures dropped as the team walked into camp, a wild area of moorland near Belstone.

The team was self-sufficient, co-operative and in good spirits as they pitched their tents and ate their boil in the bag meals, before settling down for a very chilly night.

Alarms went off at 4am - the team was pro-active and incredibly supportive of each other in a bid to be ready to leave by 6am. It was a truly beautiful day on the hill once the sun rose and broke through the mist.

A challenging day was had by the team - instead of the wind and rain they had previously trained in, there was a complete day of sunshine - this made training conditions challenging in a totally different way!

The team will now be training hard in preparation for the MOCK, taking place on April 27th/28th, just 2 weeks before Ten Tors 2019!
