Monthly Maths Puzzler

May's Maths Puzzler

Add together the following:

The number of parts in a trio

The number of strings on a violin

The number of notes in a pentatonic scale

The number of sections in the orchestra

If you multiply that total, by the number of parts in a duet, what number do you end up with?

Well done to Bradley Stoddern who was the winner.

Bradley received 15 House Points and a Collins GCSE revision book, worth £10.99.

June's Maths Puzzler

Can you solve this?

$$9 + 2 = 711$$

$$14 + 6 = 820$$

$$17 + 11 = 628$$

$$12 + 3 = ?$$
